Evaluation

F. E. Robinson – University of Alberta

Needs

- Describe the current status of the project university(what is lacking?)
- Describe the project objectives and goals and constraints
- Define what success would look like
- Communicate these points clearly

Resources

- Specifically define what is needed (people, materials, $)
- Create a resource list (people, materials, $)
- Communicate these points clearly

Doing

- Recruit resources listed above
- Break project into small pieces
- Work on achieving goals
- Communicate these points clearly

Evaluation

- Evaluate the project with all stakeholders
